

2010

IN STORE ADVERTISING MANUAL

CHUCKE CHEESE'S

TABLE OF CONTENTS

This manual provides guidelines for:

- Where advertising materials should be displayed in your location
- Installation/Maintenance tips
- Where to re-order advertising materials and displays

The Key Steps to a Successful Sales Mentality

1. Observe the guests' situation
2. Ask them the right questions, at the right time
3. Interpret their response
4. Suggest the best possible options for the guests needs
 - using the sales materials provided for added support

Advertising Materials Placement

Exterior	Pg 1
Kid Check	Pg 2
Front Counter	Pg 3
Seating	Pg 4
Birthday Display Table.....	Pg 5
Showroom	Pg 6

Installation/Maintenance Tips

Menu Boards, Light Boxes & Backlit Bill Changers	Pg 7
Window Banners, Ceiling Banners & Door Decals	Pg 8
Caddy System	Pg 9
Walk-in Party Menus, Birthday Menus, Register Inserts and Brochures	Pg 10

Re-Orders	Pg 11&12
------------------------	----------

EXTERIOR

1. Window Banner

A location may have multiple banners. Please place all banners in windows closest to front doors.

2. Advertising Door Decal

This message may change throughout the year. Place above Chuck E. Entrance/Exit decals.

KID CHECK

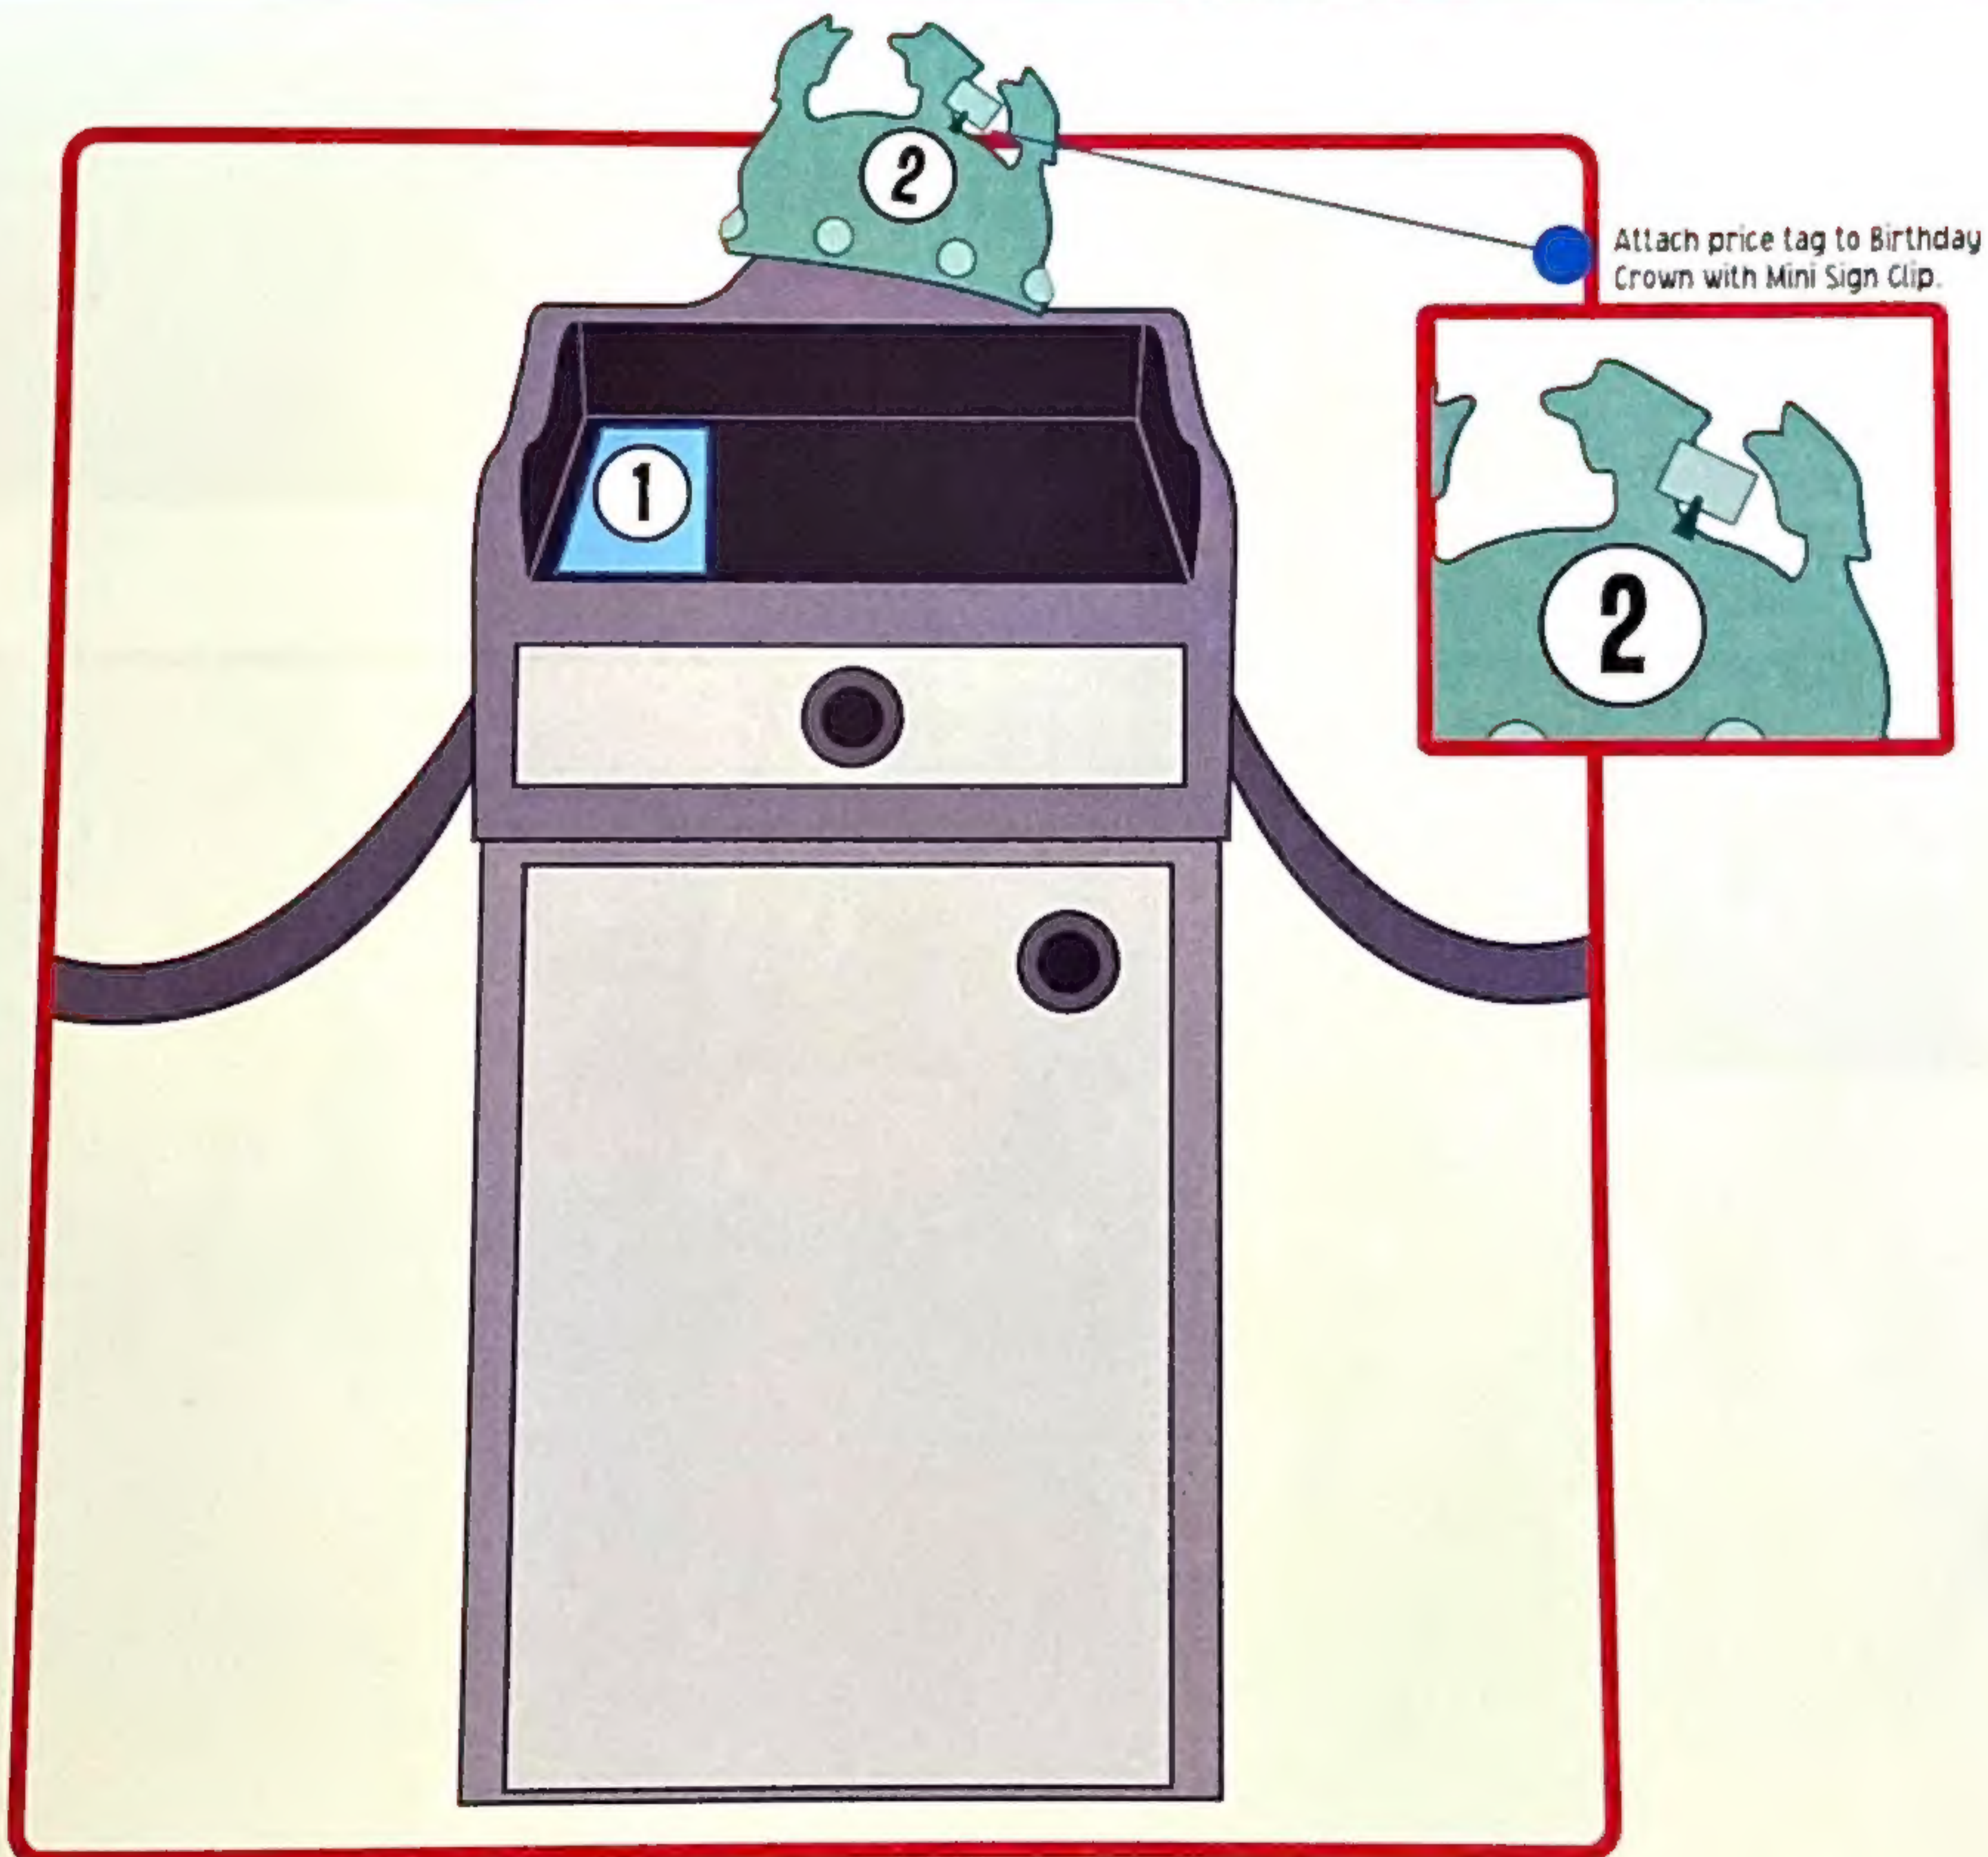

1. Walk-In Party Menu

Always keep Walk-In Party Menus at Kid Check. Once a Walk-In Party is identified, offer the guest a menu. Collect Walk-In Party Menus at cash register, then restock at Kid Check as needed.

2. Birthday Crown

Keep a Birthday Crown with price tag attached and tokens inserted at Kid Check. Place crown in guests view. After showing guests the Walk-In Party Menu, let them know about the Birthday Crown and that it's available for purchase at the counter or merchandise area.

FRONT COUNTER

1. Light Box

Light Box closest to menu panels displays food items. If you have a second box, additional messages are available.

2. Menu Panels

Be sure menu panels are placed in the order shown below (Appetizers, Tokens, Pizza). Always be sure the non-glare side of the outer protective cover faces out.

3. Order Numbers/Container

Order number containers should be within reaching distance from each register.

4. Counter Mat

Used only if your location has a counter mat area built into the counter.

5. Register Insert

Each register should have a clip attached. Placement is shown below per register type.

6. Promotional Cups

Promotional Cup displays should be placed between each register.

7. Cake Display /Tags

Place display on corner section of counter. Each tag is placed in front of corresponding cake.

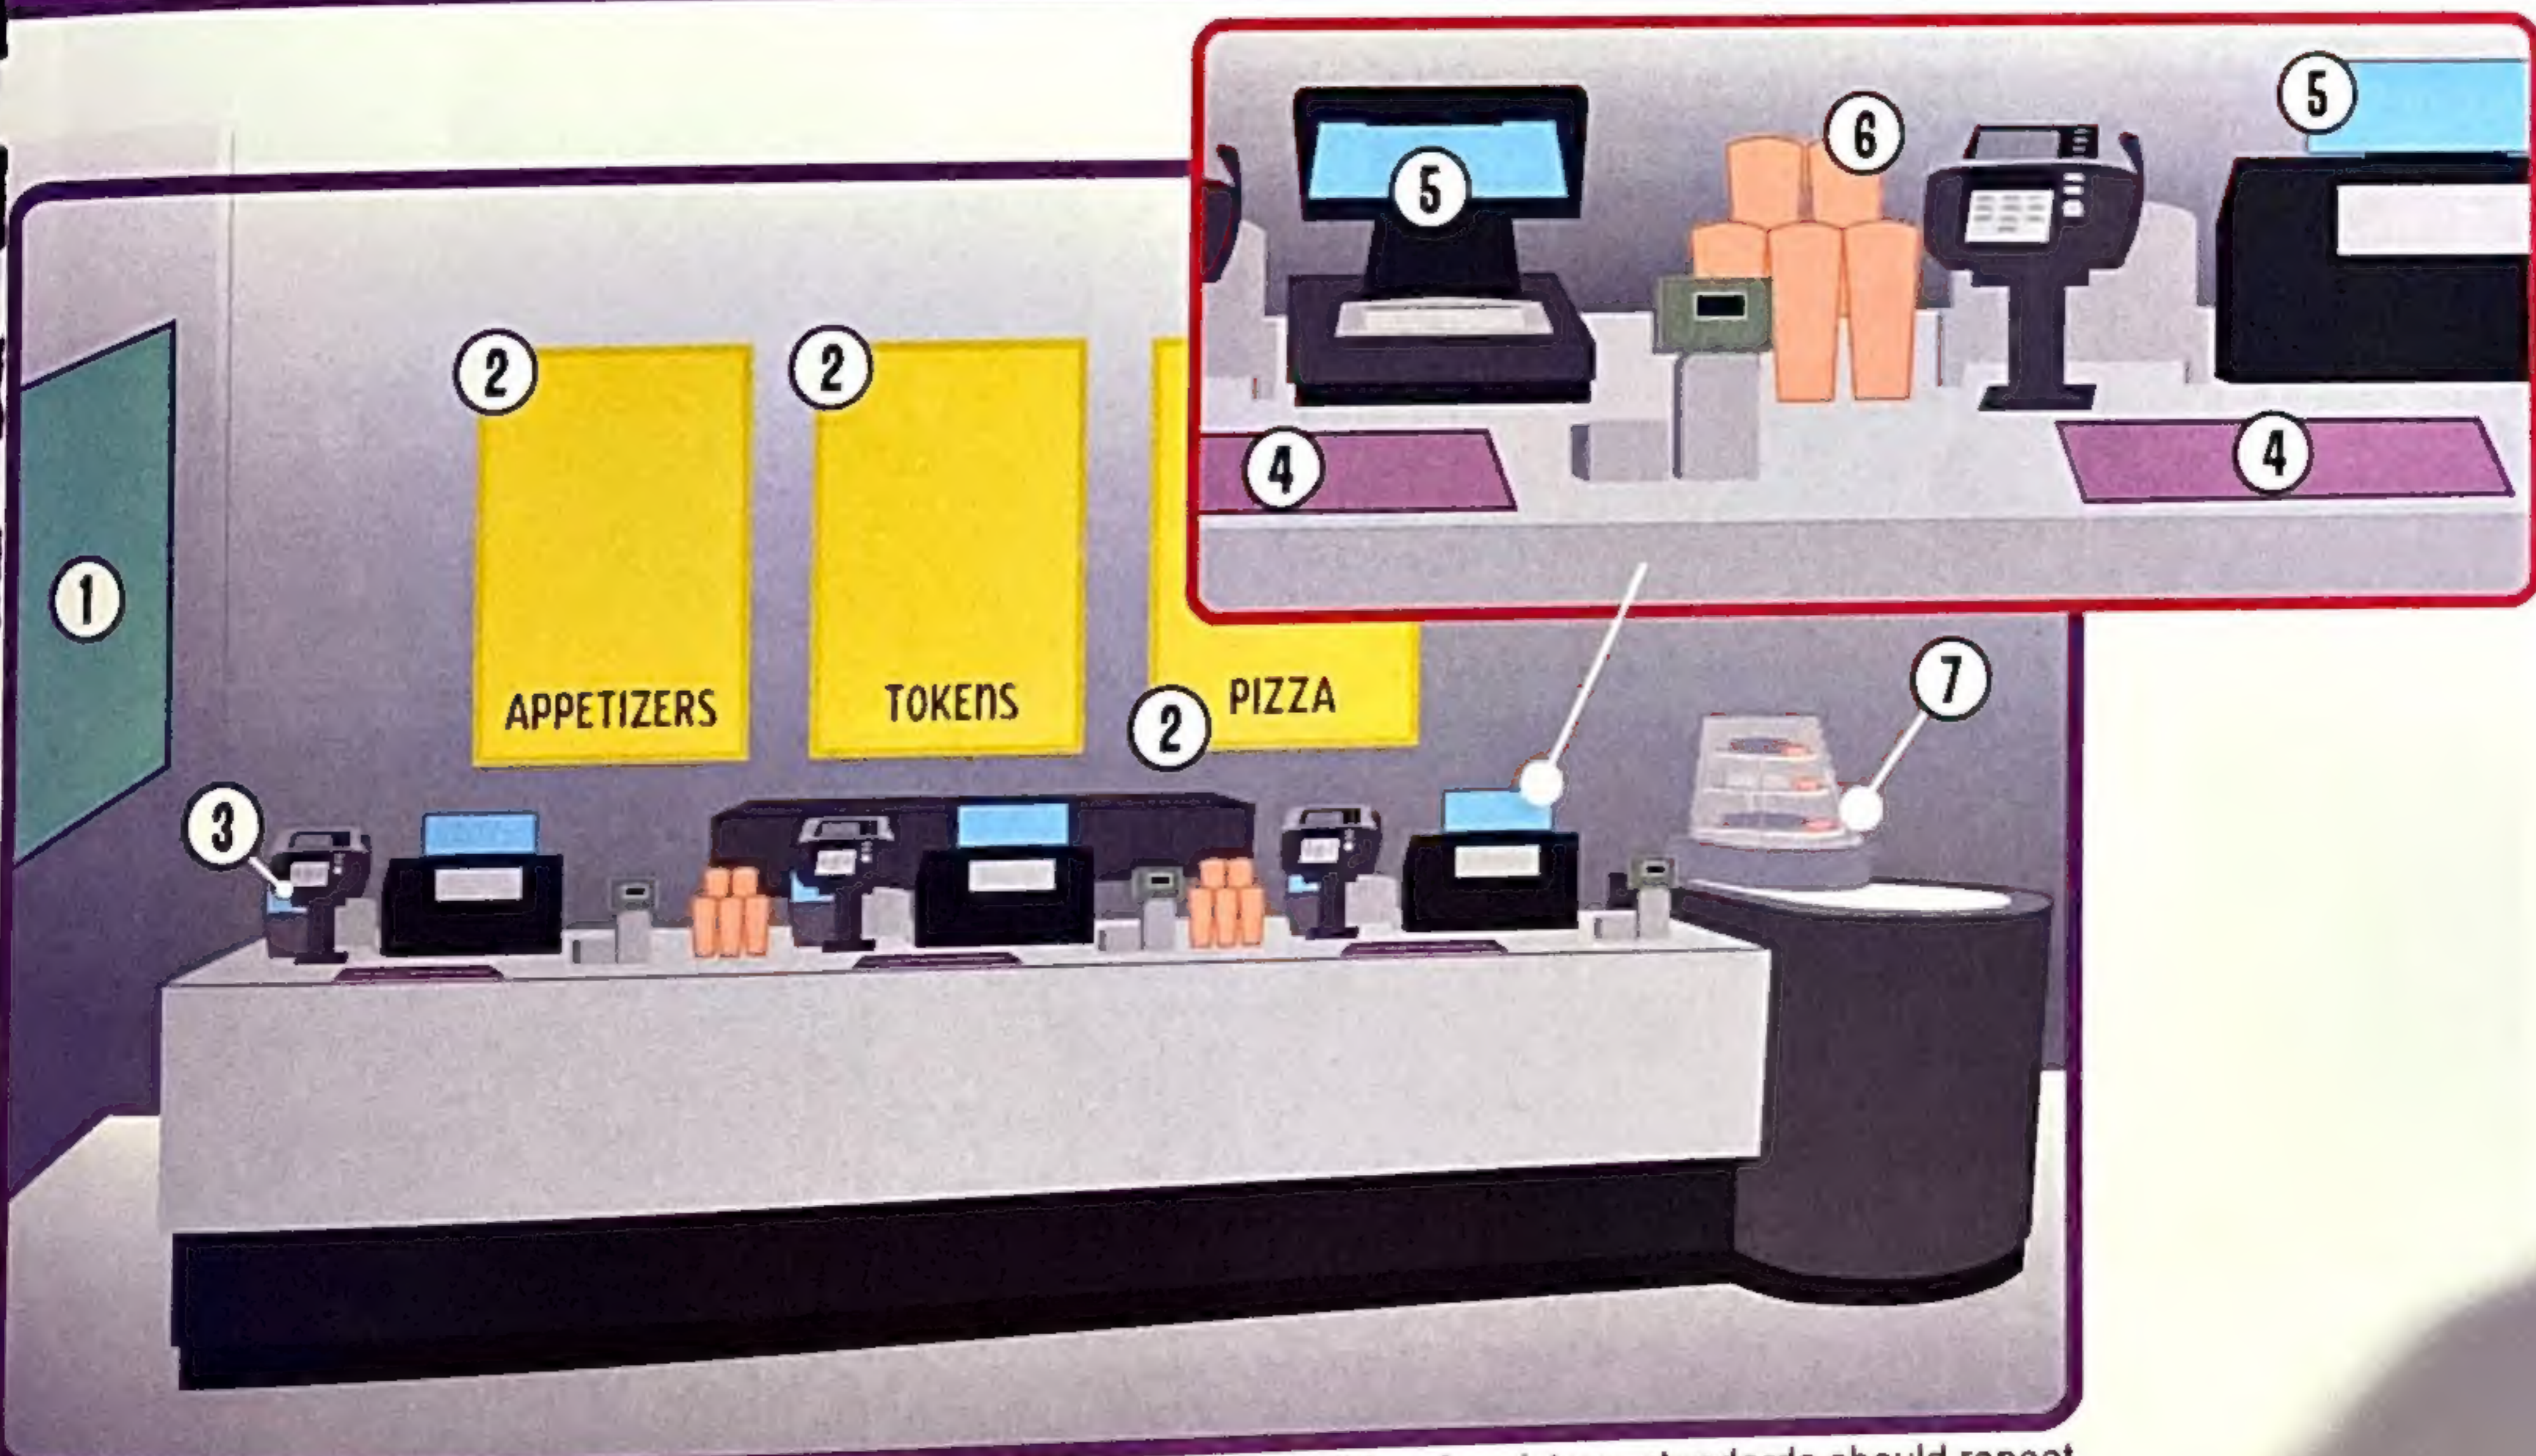

Diagram may not exactly replicate your location's counter. If you have additional registers, standards should repeat.

SEATING

1. Table Caddy

Position at front end of table.

2. Table Caddy Inserts

Messages will change periodically.
Make sure to remove old messages.

3. Order Number/Check Back/ Reserve Signs

Return to designated storage place in back
of house once food is delivered, check back is
completed or guest is seated at reserved table.

4. Napkin Dispenser

Position at back end of table.

BIRTHDAY DISPLAY TABLE

1. Tablecloth

Sides hang 4 inches from top of table.

2. Bobblehead Chuck E. Cup

3. Token Cup

4. Birthday Plate

5. Chuck E. Bank

6. "I Partied With Chuck E."

Foil Balloon w/ Star Weight

7. Jumbo "Birthday Star" Foil Balloon

Attach to Chuck E. Bank. In the name space write "Reserve a Party at www.chuckecheese.com".

Display Table should only be out Mon-Fri on the first table in the showroom closest to the game room.

8. Chuck E. Display

9. Birthday Star Crown

Insert tokens.

10. Flashing Glasses

Secure to Chuck E. Display with zip tie.

11. Birthday Medallion

Secure to Chuck E. Display with velcro on back of display.

12. Birthday Brochures

SHOWROOM

1. Napkin Dispenser

Position alongside Table Caddy. Every other 4-6 top should have this set up.

2. Table Caddy

Position alongside napkin dispenser. Every other 4-6 top should have this set up.

3. Table Caddy Inserts

Messages will change periodically. Make sure to remove old messages.

INSTALLATION & MAINTENANCE

MENU BOARDS, LIGHT BOXES & BACKLIT BILL CHANGERS

Care and Cleaning

Always be sure the non-glare side of the outer protective cover faces out.

Please use a soft cloth and warm water to clean the trim. Be careful not to scratch the surfaces. You may also use a plastic cleaner such as the "Oasis 259" or other cleaners specifically for plastics on all transparency acrylic covers and trim sections.

If you ever notice areas of color variation on the menu inserts, check your lightbulbs to make sure they are not burnt out or nearly dead.

Also check to make sure the printing on your inserts hasn't faded over time. The inserts should last 2-3 years before they show any signs of the color wearing out.

The fluorescent tubes need to be replaced annually. To ensure you are ordering the correct light bulbs and that you are receiving the best price available, make sure you order from City Lighting.

INSTALLATION & MAINTENANCE

WINDOW BANNERS

Hanging Tips

- Clean windows thoroughly.
- Use 4 suction cups per banner – one in each corner – to provide stability and to keep kids from tugging on them.
- Secure the corners of the banners spread apart tightly with the suction cups so they have no wrinkles.

Windows Not Suitable for Banners?

Here's a remedy: Hang both banners from the ceiling using ceiling clips.

- The best placement is in front of a window area.
- Your next-best choice is against open interior walls for additional interior signage.

CEILING BANNERS

Hanging Tips

- The goal is to get maximum visibility in the location.
- The bottom of each banner should be approximately 8 feet from the ground.
- Make sure that all ceiling clip strings used for the ceiling banners are the same length before hanging.

Ceiling Banner Infractions

- When guests stand at the cashier area or the prize/merch counter, ceiling banners should not block the view of the menu board or the merchandise wall.
- Do not block view of security cameras.
- Do not hang ceiling banners in the game area or in the showroom.
- Keep out of the direct path of motion detector sensors, or at least 35 feet away from them.
- Do not hang on (or directly under) sprinkler heads or light fixtures.
- Do not hang directly under HVAC vents.

Ceiling Banners Setting Off Your Motion Detectors?

- First, make sure the banners are NOT in the direct path of a sensor, and are at least 35 feet away.
- Next, make sure the banners are not near HVAC vents.
- If these are not the issues, call Marketing at 472.257.3056 for alternative solutions.

DOOR DECALS

Please place your door decal on the outside of your 1st set of main entrance doors. To install: clean and dry window, remove the back liner and stick to door firmly removing any air pockets with a squeegee.

INSTALLATION & MAINTENANCE

WALK-IN PARTY MENUS

Every location should be using Walk-in Party plastic menu holders to hand to their guests at kid check. The walk-in party menu holds two inserts 5.5" x 8.5" one in front and one in back facing you.

BIRTHDAY MENUS

Every location should be using Birthday party menu plastic holders to hand to their guests celebrating a birthday, as well as to use on the Birthday Display Table.

The birthday menu holds four inserts 5.5" x 8.5" in this order (you holding the menu):

1. Cover on outside front
2. Pizza on inside left
3. Super Saver on inside right
4. Platter on outside back

REGISTER INSERTS

Install one register insert per register with a register clip. Register clips do wear over time and lose their grip so make sure you replace your register clips when needed.

BROCHURES

In your brochure rack should be your three brochures. From the guest perspective place your Non-profit fundraising brochure in the back right, School fundraising brochure in the back left and your Birthday brochure in the front.

1. Birthday Brochure
2. School Fundraising Brochure
3. Non-Profit Fundraising Brochure
